Press Release - 29th of September, 2011

SysTech Receives Award for Wisconsin I/M Program Contract

Opus Prodox AB (publ) today announces that the Wisconsin Department of Transportation (WisDOT), after completing its evaluation of a competitive bidding process, has issued the intent to award the State of Wisconsin emissions testing program contract to Opus subsidiary, SysTech International, LLC. Testing will begin in July 2012.

SysTech and WisDOT are currently negotiating a five year contract with two three year extensions, a total of 11 years.

"We are pleased that the WisDOT has chosen SysTech in a competitive bid to implement and manage an emissions testing program", said Lothar Geilen, CEO of SysTech. "This contract also allows SysTech to implement many of its new innovative features, including a new vehicle registration renewal program".

The WisDOT emission testing program addresses over a million vehicles, which are required to pass emissions inspections in the seven most populated counties in Wisconsin.

The order value is not stated due to competitive reasons.
